ACCESS TO NON-FOOD ITEMS

Output indicator, Cluster indicator

Indicator Phrasing

English: number or % of targeted population receiving NFI kits

French: nombre ou % de la population cible recevant des kits de produits non alimentaires

Spanish: número o % de la población objetivo que recibe kits de artículos no alimentarios

Portuguese: número ou % de população-alvo que recebem kits de artigos não-alimentares

Czech: počet nebo % cílové populace dostávající nepotravinové balíčky

What is its purpose?

The indicator measures the number of people receiving kits with non-food items. It should always be complemented with an indicator assessing beneficiaries' satisfaction with the provided support.

How to Collect and Analyse the Required Data

1) Review the distribution lists (signed by beneficiaries) and cross-check them with data from the post-distribution monitoring (e.g. on the % of beneficiaries who reported receiving the provided items).

Disaggregate by

Disaggregate the data by gender and specific vulnerable groups, such as people with disability.

Important Comments

1) BHA phrases this indicator differently, as "*number and percent of households receiving NFIs in identified settlement(s) through use of in-kind NFIs*".
