

# ENROLMENT IN VOCATIONAL EDUCATION TRAINING

Outcome indicator, Output indicator

---

## Indicator Phrasing

**English:** number of students newly enrolled in VET training in [specify the time period]

**French:** nombre d'étudiants nouvellement inscrits dans une formation d'EFP pendant [précisez la période]

**Spanish:** número de estudiantes de nuevo ingreso en la EFP en [especificar el periodo de tiempo]

**Portuguese:** número de estudantes recém-matriculados em formações de Formação e Educação Vocacional (FEV) em [especifique o período de tempo]

**Czech:** počet nově zapsaných studentů odborného vzdělávání v [doplňte období]

## What is its purpose?

The indicator assesses the number of students who started attending vocational education training (VET) at a given time period.

## How to Collect and Analyse the Required Data

1) To collect the required information, use the target VET institutions' registers or education authorities' data on enrolment.

## Disaggregate by

[Disaggregate](#) the data by trade (e.g. carpenter, hairdresser), gender (male, female) and the target group (e.g. certain minorities, unemployed youth, people with disabilities).

## Important Comments

1) The enrolment numbers can sometimes be used as a basis for VET institution performance evaluation and for funds allocations by the educational authorities. In such circumstances, **different interests can be involved in student registration/ enrolment calculation**, and care should be taken in interpreting this indicator, especially when you do not have any control over the data recording.
