COMPLETION RATE IN VOCATIONAL EDUCATION TRAINING

Outcome indicator

Indicator Phrasing

English: % of trainees who completed [specify the VET program]

French: % d'étudiants ayant achevé [précisez le programme d'EFP]

Spanish: % de alumnos que han completado [especifique el programa de EFP]

Portuguese: % de formandos que concluíram [especifique o programa FEV]

Czech: % studentů, kteří dokončili [doplňte název programu odborného vzdělávání]

What is its purpose?

The indicator assesses the percentage of participants who were enrolled in a given vocational education training (VET) program at a given time period and successfully completed their vocational training.

How to Collect and Analyse the Required Data

1) **Review the VET institution's data on enrolment and completion** by grade level to determine which students have completed the entire VET program in the given time period.

2) To **calculate the indicator's value,** divide the number of students who successfully completed the VET program (i.e. graduates) by the number of all students enrolled in the beginning of the VET program. Multiply the result by 100 to convert it to a percentage.

Disaggregate by

Disaggregate the data by gender, trade and specific vulnerable groups, such as minorities or people with disability.
