

STUDENT ENROLMENT

Outcome indicator, Output indicator

Indicator Phrasing

English: number of girls and boys newly enrolled in [select: primary / secondary] education in a given school year

French: nombre de filles et de garçons nouvellement inscrits à l'enseignement primaire /secondaire au cours d'une année scolaire donnée

Portuguese: número de raparigas e rapazes recém-matriculados no ensino [selecione: primário/ secundário] num determinado ano escolar

Czech: počet dívek a chlapců, kteří se nově přihlásili ke studiu na [vyberte: základní / střední] škole v daném školním roce

What is its purpose?

This simple indicator describes the number of children (or specific groups of children, e.g. internally displaced persons, minority groups) that can access education. The indicator can measure enrolment in schools and (in an emergency context) in temporary learning spaces.

How to Collect and Analyse the Required Data

Collect the required data from school registers or education authorities' data on enrolment.

Disaggregate by

The data can be [disaggregated](#) by grade levels, gender and target group, such as minority groups, children with disabilities or mother language.

Important Comments

1) ECHO phrases this indicator slightly differently, as "*number of targeted girls and boys enrolled in formal education services*" and "*number of targeted girls and boys enrolled in non-formal education services*".
